

# Glatt Drum Coating Systems

**MINI-  
COATER-  
SYSTEM  
FOR RESEARCH AND  
DEVELOPMENT**

**GMPC I Mini-Coater**

# Making dreams come true!

## **For professionals: The new GMPC I Mini-Coater. First-class coating for small batch sizes. The perfect laboratory unit for research and development.**

- Maximum effect – minimal effort! In research and development, every gram of product results in huge costs. Our Mini-Coater lets you produce batches as small as 500 g extremely efficiently.
- Feasibility tests – quick and easy! With its three exchangeable drums and special nozzle arrangement, the Mini-Coater is ready to start work immediately.
- Optional qualification package for clinical samples. All relevant materials are FDA compliant. The inlet air is HEPA filtered. The entire system is qualified. What more could you ask for?
- High quality processing in the very best Glatt tradition. At an extremely attractive price.

**Glatt Mini-Coater nozzle – small and fine**  
ABC Technology® prevents deposits on the jet.  
Externally adjustable and positionable.

Superior coating  
on a very small scale.

**Optimal results in minimal time.  
No time-consuming installation. Robust,  
reliable technology. The new GMPC I Mini-Coater  
eases your everyday work in the lab!**

● Effortless handling – simply ingenious.  
And ingeniously simple. The complete housing  
can be dismantled and reassembled for drum  
changes or cleaning in a matter of seconds.

● Wonderfully simple. And simply wonderful!

**3 exchangeable drums**

1.6 liter drum as standard, 0.8 liters  
and 2.5 liters optionally available.

# Plug & Coat!

**Complex technology integrated  
in a compact, attractive and  
functional design.**

Unpack. Connect and coat!

**Control – reduced to a maximum**  
Focusing on essentials. Clearly structured ergonomics  
for quick and intuitive control of all important functions.
