

For the last 60 years, Glatt has been a worldwide leader in integrated process solutions for the pharmaceutical and related powder processing industries.

We are a leading world supplier of integrated processing solutions for customers in the area of pharmaceuticals, food processing, feeds and fine chemicals. Our products and services stand for reliability and quality worldwide. About 2,000 employees work for Glatt at more than 14 companies and offices all over the world.

For our site in Ramsey, NJ (USA) we have an immediate opening for a:

## PHARMACEUTICAL MANUFACTURING PROCESS EQUIPMENT & SUPPORT TECHNICIAN

### Job description:

- » Maintain all Glatt facility and process equipment. Use industry accepted best practices for electrical, pneumatic, hydraulic and mechanical standards.
- » Solely responsible for all new equipment, Building Automation System (BAS), SEM's database monitoring system for thermal catalytic oxidizer, Class I Division I/II solvent rated rooms and equipment, USP purified steam generator/water systems and all related and ancillary HVAC and Steam Systems, hydraulic pumps, motors and boilers that support division.
- » Shift work.

### Preferred skills:

- » Must be "hands on" with experience in maintenance, specifically troubleshooting, repair and calibration practices of equipment and instruments; specifically, PLC's HVAC, mechanical, hydraulic and pneumatic devices, motors and frequency drives, NFPA, NEC, NEMA, cGMPs, boilers and air compressors.
- » Black Seal Boiler License required. High Pressure Boiler License preferred or must be willing to obtain certification. Stainless Steel welding experience preferred.
